Thank you for sending me a copy of the fascinating book you authored, "Feeding the Enemy". The narrative is informative and compelling, and I found the descriptions about your family, and what they did to survive the hardships of the war, to be particularly poignant.

I am glad that you took the time to put this interesting story of your family to paper, so that it could be shared with many other interested readers.

Once again, grazie, and let me wish you the best of luck with your next book.
